Eastwood Global for Student Athletes

**Training and competing
at the highest level should
not cost a student their
education.**

Eastwood Global was built to honor both. In partnership with High Performance Systems, students get timetable flexibility, academic pacing around competition periods, and direct coordination between school, family, and coaching staff.

How We Support Athletes

❖ Experience Driven *Learning*

A strong academic foundation with flexible scheduling and personalized support, so athletes can succeed on both fronts.

❖ Academic *Rigor*

The IB's standards prepare student athletes for higher education and for life beyond sport, developing critical thinking and intellectual independence.

Florentin, Grade 9, Switzerland

❖ Training and *Personal Growth*

The CAS component of the IB Diploma supports an athlete's development directly, with requirements in creative activity, physical engagement, and community service.

❖ Personalized *Projects*

The Extended Essay and Theory of Knowledge give students the chance to explore areas connected to their athletic interests, such as sports science, psychology, or nutrition.

Andrej, Grade 12, Switzerland

❖ Leadership and *Real-World Exposure*

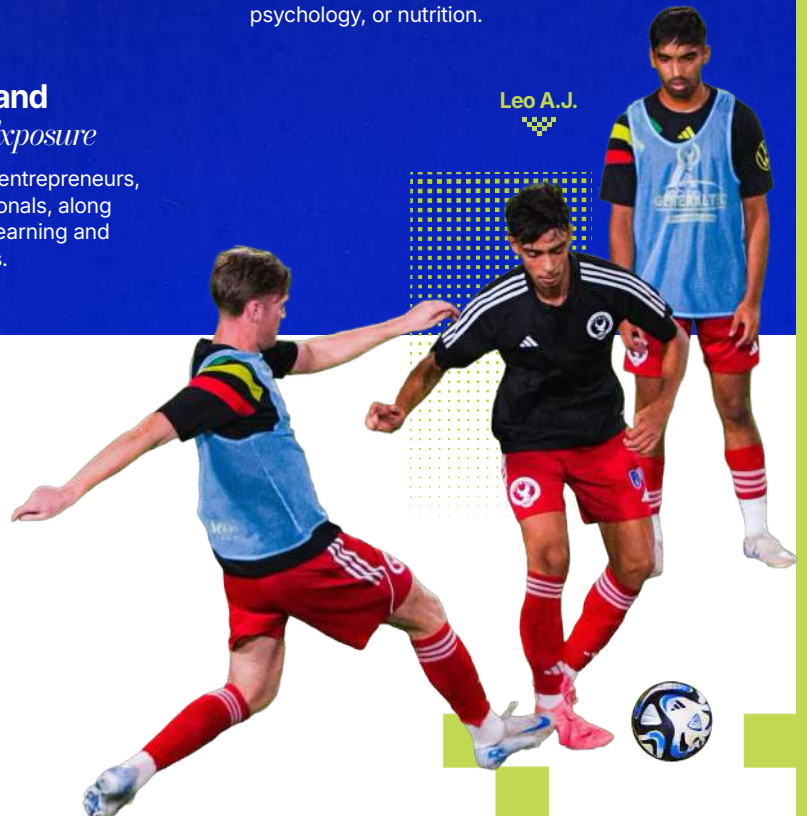

Masterclasses led by entrepreneurs, athletes, and professionals, along with career-focused learning and internship placements.
